THE TIMING

Apple. Google. Microsoft. IBM.

What do these technology companies have in common? They're four out of the five top brands in the world... because they saw where the masses were going and *got there first*; they introduced innovations that changed the way we live our daily lives.

Imagine what your life would be like if you were involved when these technology giants were just starting out. Now get excited. Because it's *your* chance to turn an opportunity into a reality.

THE EVOLUTION OF ONLINE VIDEO

THEN: The first big video boom was for **personal use**: people sharing, watching, and recording life moments online to keep in touch with friends and family or be entertained. The phenomenon of the "viral video" sent view counts through the roof, and its piquing popularity led Google to buy YouTube for **\$1.65 billion** in 2006—but that was just the beginning.

NOW - The next big thing: As hundreds of millions of people generate *billions* of views every day, online video is undergoing a massive evolution; it's rapidly becoming a **business marketing goldmine**.

The statistics don't lie: marketers who use video grow revenue 49% faster than those who don't, and the gap is about to become even larger. That's why companies all over the world, large and small, are eager to be the first in their industry to put this powerhouse-marketing medium to work for *them*.

This is your chance to capitalize on the biggest revolution in online marketing.

Talk Fusion is perfectly positioned to rise above the competition and dominate this fast-emerging era. We're the only company that has everything business marketers need to succeed all in one place—from boosting email marketing results with video to cutting travel costs with live broadcasting and more.

Being ahead of the curve is in our DNA. Talk Fusion is a new breed of company: always innovating, always looking ahead to the future, always on the verge of the next breakthrough trend. Because we foresaw video's value early on, our all-inone Video Marketing Solution is now the first and only of its kind in the world and its massive demand is reaching new heights. That's why it's important that you get involved NOW. Don't waste time imagining what your life *could've* been like when you can be part of something bigger than yourself.

We're about to take off—don't get left behind.

THE PHILANTHROPY

At Talk Fusion, we believe that "with great success comes even greater responsibility."
