

REGISTER NEW ASSOCIATES

1) Your Talk Fusion Marketing websites.

The first way is through your Talk Fusion or Tour Talk Fusion Marketing websites, which are now active. They can be found at: www.TalkFusion.com/xxxxxxx & www.TourTalkFusion.com/xxxxxxx (your 7-digit ID number, provided in your Welcome Letter.) When a new Associate registers on your marketing website, you are automatically credited as the Sponsor. The placement of your new Associates will be determined by the settings in the **My Summary** section of your Back Office. You can choose **LEFT**, **RIGHT** or **AUTO**. For all new Associates, the default setting is on **AUTO**. For quick reference, please note the following:

LEFT

If LEFT placement option is selected, all personally sponsored Associates will be placed in the next available position on the outside of the bottom of the left leg.

RIGHT

If RIGHT placement option is selected, all personally sponsored Associates will be placed in the next available position on the outside of the bottom of the right leg.

AUTO

If Auto is chosen, the computer will first look to see if you are qualified by having personally sponsored one Associate on the left leg and one Associate on the right leg.

If you do not have anybody personally sponsored, the first person you sponsor will be placed in the same leg as your sponsor. For example, if you are placed in your sponsor's right leg, your first personally sponsored person will be placed on your right leg.

If you already have one person personally sponsored but you are not qualified, your second personally sponsored person will be placed on the leg which will make you qualified. For example, if you have already personally sponsored an Associate on the left leg but none on the right, the computer will automatically place your 2nd personally sponsored Associate on the right leg in order to help you become qualified.

If you are already qualified, the new Associate will be placed on the outside of the leg with the least amount of Sales Volume.

2) The Genealogy section in your Back Office.

The second way is to manually place a new Associate in a *specific* position in your **Genealogy**. Simply click on an **OPEN** position in the genealogy tree and the Independent Associate application will appear. You will find the **Genealogy** section under the Business Center tab.

PLEASE NOTE: As our System calculates commissions in real time, once you place an Associate into your organization, they cannot be moved. For any support questions, please email Support@TalkFusion.com or call: +001 813 651 4030
