

AUTO RESPONDER 2.0 TUTORIAL

AUTOMATICALLY FOLLOW UP WITH PROSPECTS

OR SEND THEM A SERIES OF
TARGETED VIDEO MESSAGES

We all know it takes more than one contact to turn a Prospect into a Customer.

Put our **Video Auto Responders** to work for you and easily send out Video Email Messages at intervals you decide.

Let's get started!

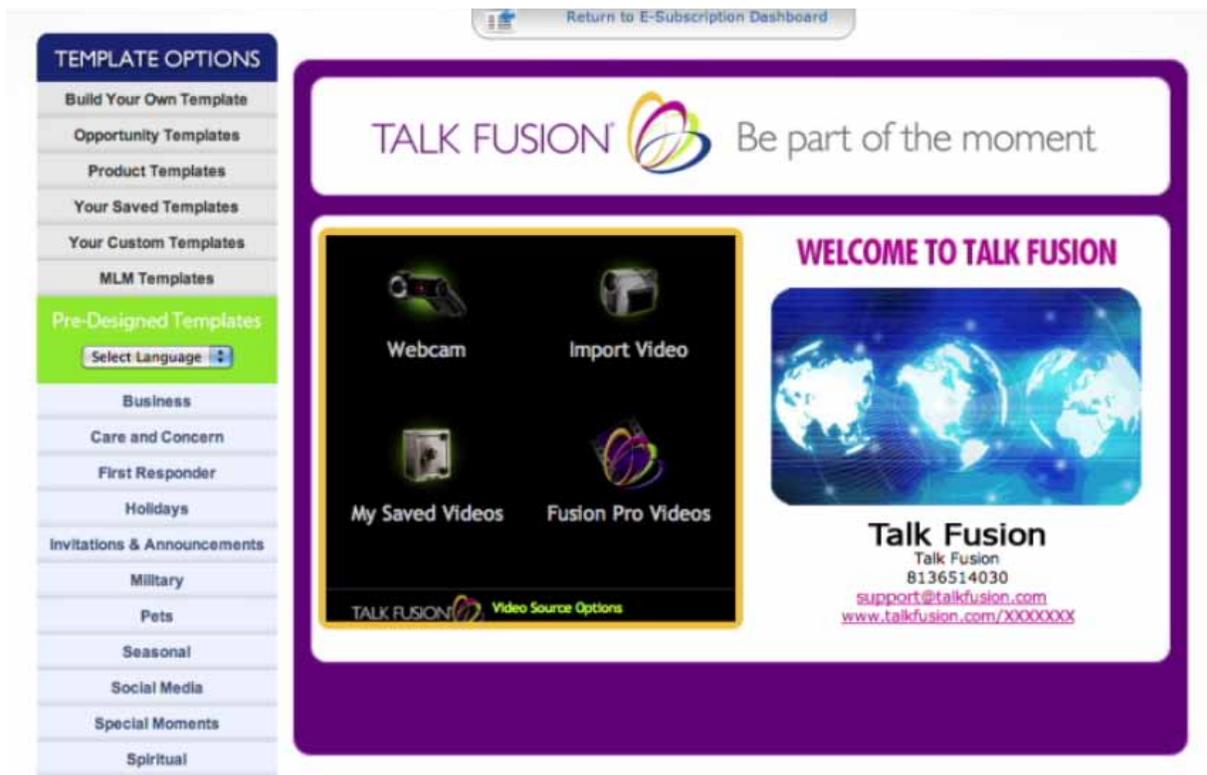

The screenshot displays the Talk Fusion Video Communication Center dashboard. At the top, there's a header with the logo and navigation links: 'Back Office | Video Communication Center | Log out | SUPPORT'. Below this is a main navigation bar with tabs for 'VIDEO EMAILS', 'REPORTS', 'VIDEO RESPONDERS', 'VIDEO CONFERENCING', and 'LIVE BROADCASTING'. The 'VIDEO RESPONDERS' tab is active, showing a dropdown menu with options: 'Video Auto Responders', 'E-Subscription', 'E-Subscription Campaigns', 'E-Subscription Form Designer', and 'E-Subscription Form Library'. A 'GET STARTED' button is prominently displayed. To the right, there's a banner for 'E-SUBSCRIPTION 2.0 NOW LIVE!' with bullet points: 'All-New Design Studio' and 'Create Your Own Fields'. The background features a large 'WELCOME TO YOUR VIDEO COMMUNICATION CENTER' message.

1. Log into your Video Communication Center. Then, move your cursor over the button entitled "Video Responders." Select the "Video Auto Responders" link from the drop-down menu to go to the Video Auto Responders 2.0 Main Page.

2. On the Video Auto Responders 2.0 Main Page, you can start a new Campaign. You can also view, select and edit existing Campaigns.

For now, enter a title for a new Campaign. We suggest choosing a name that is easy to remember and relates to the specific use of the Campaign. Type in your title and click “Submit.” You will be taken to your Campaign Studio.

3. Your Campaign Studio works identically to your Video Email Studio. Use your Custom Template, choose from thousands of pre-designed templates, or create a new template by changing the border colors, banner, headline and picture using our easy onscreen Option Icons.

The screenshot displays the Talk Fusion video creation interface. On the left is a 'TEMPLATE OPTIONS' sidebar with categories like 'Build Your Own Template', 'Pre-Designed Templates', and various event types. The main area shows a video preview with a 'TALK FUSION Be part of the moment' banner at the top, a central 'THANK YOU!' greeting with a woman jumping, and a 'Video Source Options' panel with buttons for 'Webcam', 'Import Video', 'My Saved Videos', and 'Fusion Pro Videos'. Below the preview are two color selection tools: 'Change Inner Frame Color' and 'Change Outer Frame Color'. Callouts point to the banner, the central image/greeting, and the color selection tools.

Change banner

Change picture & greeting

Change colors of inner and outer frames

To create a new template by changing the border colors, banner, picture or headline, simply hover your cursor over the area you want to change until the Option Icons appear, then select the option you want. You can select banners and pictures from Talk Fusion’s library, or upload new ones from your computer.

HELPFUL TIPS:

Change Border Colors, Banner, Picture & Greeting in **REAL TIME!** *Simply Hover & Click!*

Select Images, Greetings and Banners from Your Talk Fusion Library

Upload New Images or Banners from Your Computer, or Create Your Own Greeting.

Change Inner Frame Color

Change Outer Frame Color

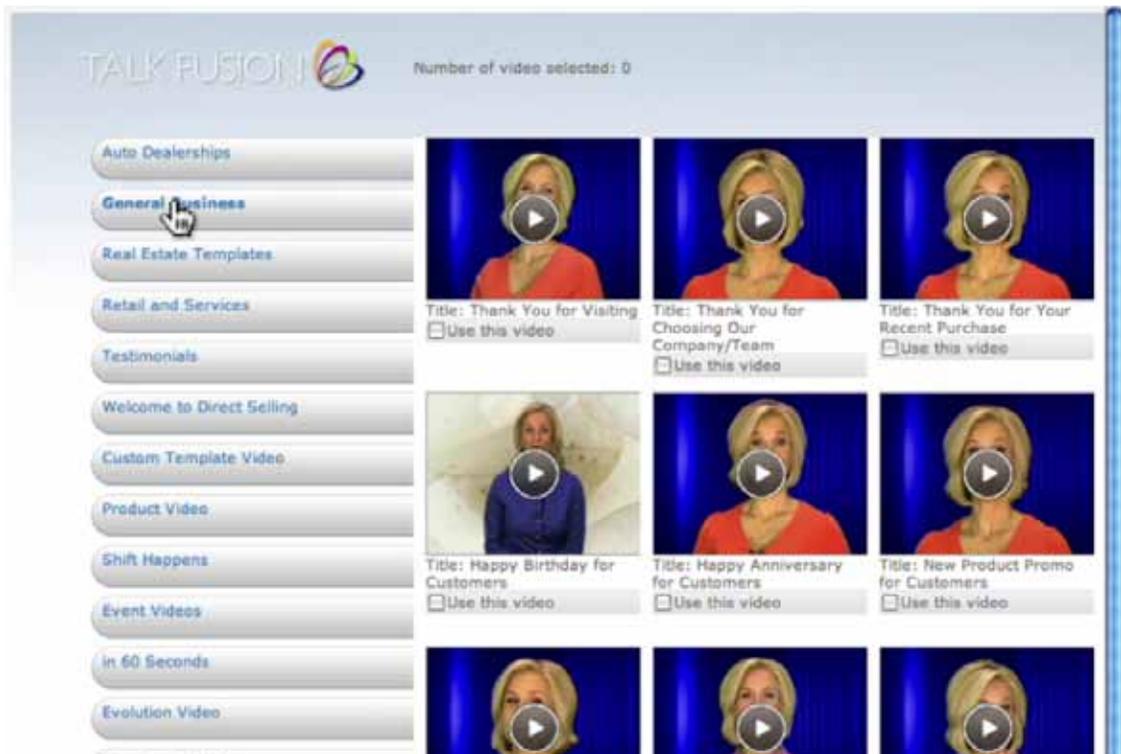

4. Once you are satisfied with your template, you will want to select or make a video for your new Campaign.

You can choose to make a new video with your webcam, import a video from your computer, use a saved video from your Video Library, or share a Fusion Pro Video. In this tutorial we will use a Fusion Pro Video, so click the link in the template with the Talk Fusion logo and the words “Fusion Pro Videos.”

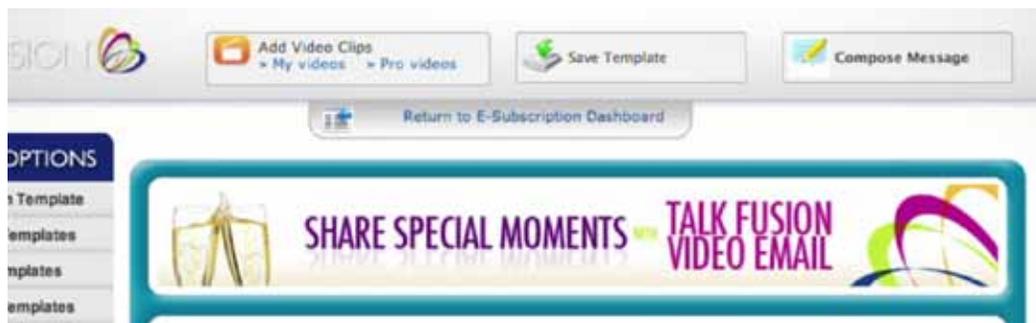

5. In the pop-up window, select a category of Fusion Pro Videos. We'll select "General Business."

6. Check the boxes under the videos you would like to use. With Video Auto Responders, you can select just one video, or as many as you like! When you are finished, click the "Use Selected Video/Sort Selected Videos" button.

7. If you selected more than one video, a new pop-up window will open with your videos pictured vertically. You can re-order them easily by simply clicking on the images and dragging them up or down. When you have the videos in the order you want them, click the “I Am Done Sorting” button.

8. You will be directed back to your Campaign Studio, which now includes options to add more videos to your Video Email, save your template and compose the text of your message.

To add more videos, select your Video Library or the Talk Fusion Pro Video Library, and repeat the previous 2 steps.

To save your current template, click the “Save Template” button, name your template and click “Save.” You also have the option to set your current template as your default template.

When you are satisfied with your Video Email and template, click the “Compose Message” button.

COMPLETE YOUR CAMPAIGN

9. The Build Your Campaign Page is where you create a personalized message to be sent with your Video Auto Responder. Write your own subject line and message. You can also instruct the Video Auto Responder to insert a personal greeting into each message using the text in your Contact List’s “First Name” fields, replace Talk Fusion’s Facebook and Twitter URLs with your own, or remove the social media link buttons completely.

You can create up to 5 separate Video Emails and messages per Campaign. (You will be able to schedule them for delivery at distinct intervals during the next step.) When you are satisfied with the number and content of this Campaign’s messages, click the “Complete Your Campaign” button.

RETURN TO VIDEO RESPONDER DASHBOARD

11. The Preview Your Campaign Page gives you a complete overview of the Video Auto Responder Campaign you have just created. You can double-check and edit everything—individual recipients, delivery times, your message content, videos and Video Email Templates. You can even add additional messages, or copy your Campaign and use it as the basis for a new Campaign without having to start over from scratch!

When you are satisfied with every element of your Campaign, click the “Save Your Campaign” button.
